

READYCONFERENCE® GLOBALMEETSM AUTOMATED CONFERENCING

WHEN CONVENIENCE REALLY MATTERS

Meet Anytime From Anywhere With ReadyConference® GlobalMeetSM

Your most important international calls demand the highest quality connections. Premiere Global Services, the leader in innovative conferencing and collaboration solutions, introduces ReadyConference GlobalMeet with local access points around the globe to make staying connected easier and more cost effective than ever.

ReadyConference GlobalMeet calls are connected directly to a high-speed IP Network, giving your global calls superior audio clarity. Consistent touch-tone features make international conferencing easier and more reliable than expensive, limited international toll-free options.

ReadyConference GlobalMeet Bridges the Gap

Using the ReadyConference® Plus platform, ReadyConference GlobalMeet provides automated service with local access points around the globe.

- EMEA Access Points serving the entire region
- Asia Pacific Access Points serving the entire region
- North America (Toll Number) access
- Toll-free access serving United States and Canada

Calls into a local number are automatically forwarded to one central ReadyConference Plus platform, ensuring fast connections, superior audio quality and maximum reliability.

Discover the Advantages of GlobalMeet

Flexibility & Affordability: International tollfree numbers are restricted to a specific country. ReadyConference GlobalMeet covers major business hubs, providing inexpensive long-distance access.

Speed: The fast IP Network connects you to clients and colleagues anywhere in the world. Dial direct from your cell phone, home phone or office—without operators or reservations.

Consistency: Because all ReadyConference GlobalMeet international calls travel over the same high-speed IP Network, the quality of your audio is always consistent and clear—without audio lags or overlap. All touch-tone commands are translated to universal DTMF tones so there are no inconsistencies between countries.

connect locally meet globally

Reliability: ReadyConference® GlobalMeet™ utilizes the reliable ReadyConference® Plus bridging platform that provides 99.9% error-free calls.

Convenience: Easy-to-use automated features require no reservations or operator assistance. Meet anytime, from anywhere.

Service: As always, Premiere Global Services' customer care team is available 24/7 should you need assistance at anytime.

Experience the Latest Innovation from Premiere Global Services

For the past 20 years, Premiere Global Services has been bringing the world closer with innovative communications solutions, including the creation of the first automated, reservationless conferencing tool, ReadyConference Plus. Now, using ReadyConference Plus' innovative features, GlobalMeet provides a smarter way to communicate, no matter where you are. Control volume levels, add security options and even conduct break-out sessions during your conference. ReadyConference Plus gives you the flexibility to meet your company's individual needs, allowing you to conduct business more effectively.
